

# Barrow Other ICC

Figure 1: Barrow Other ICC with Indices of Deprivation 2015

(c) Crown Copyright and Database Right, 2017 Ordnance Survey Licence Number 100019596

## Key issues

- Older population projected to increase; working age population projected to decrease in the district (Barrow-in-Furness)
- Life Expectancy and Healthy Life Expectancy (in the district) below national average
- Hospital stays for alcohol related harm worse than national average
- Greater % of patients on GP Registers with: hypertension; diabetes; asthma; and dementia than the national average

## Barrow Other ICC

**Key:** Text in *blue* refers to *registered population*; text in *black* refers to *resident population*. Where possible, comparisons with South Cumbria have been included; as well as benchmarking data against the England average.

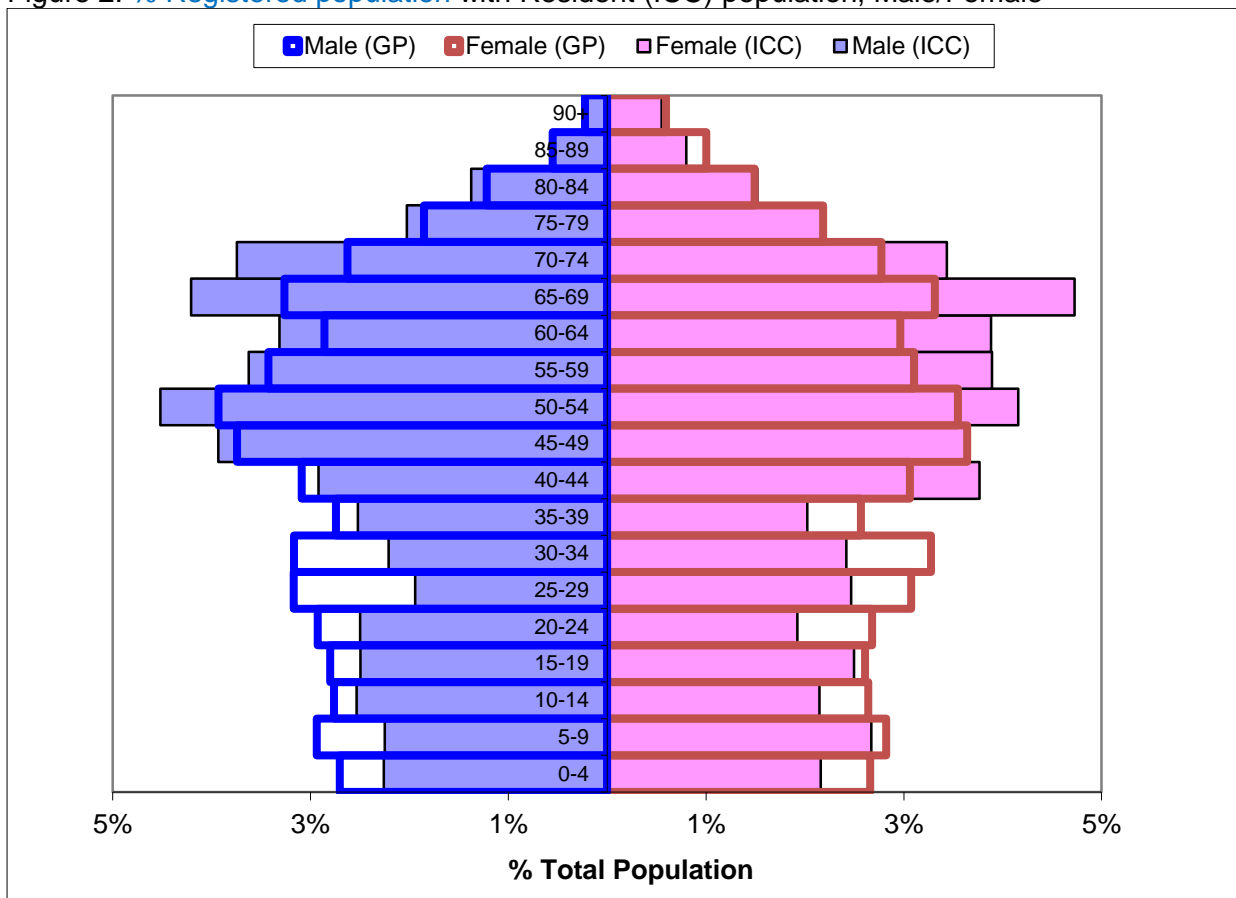

Table 1: Demographics, Barrow Other ICC

	<b>ICC</b>
<b>Registered Population (total combined GPs within ICC)</b>	33,774
Mid-Year Population, ONS 2015 (calculations based on % within ICC)	5,116
% 0-19 years	19.0%
% 15-64 years	60.6%
% 65+ years	25.3%
% 85+ years	2.1%
Black and Minority Ethnic (BME) Population (%)	1.2%
Population whose ethnicity is not 'White UK' (%)	2.2%
Proficiency in English (% of people who cannot speak English well or at all)	0.1%
Provision of 1 hour or more unpaid care per week (%)	13.5%
Provision of 50 hours or more unpaid care per week (%)	2.9%
