Frequently asked questions

1. Can I stop working through an eLearning course and return to it later?

A benefit of My Learning is that you don't have to complete a whole course in one visit. You can revisit a course as many times as you like in order to complete it. Course duration obviously depends on the size of the course and the sections within it. We recommend spending no more than 1½ hours in each eLearning session you do.

To exit a course at any time, click on **Home**, located in the bottom of every page, which will take you back to the course contents. Click on **Exit**, to leave the course and return to the **Course Homepage**. Your eLearning course and completed sections will be saved in your profile and will be available the next time you log in.

2. How do I know if I have completed a section within an eLearning course?

While working through the course a blue bar will move from left to right across the top of the screen, Once this bar reaches the right hand side the section is complete.

You can click on this bar to show the progress of each stage, if any of the sections are white they are incomplete. You can click or tap on these sections to move back and complete them.

3. How can I find out which eLearning courses I have completed?

Click or tap on Records of Learning on the toolbar at the top of the page, you will then see a list of eLearning courses you have accessed or completed. If they are complete this will show a green bar next to the course title.

4. My course has not saved, what do I do?

Courses that do not save can be frustrating. There are several potential reasons why a course does not save. We have put a guide together to help you to save your course successfully. This is situated in the "Guides" section of the My Learning site. Please look for the "How to successfully save my course". If you do continue to experience issues, please contact the team using the email below.
