Date: 14 January 2019
Your reference: 4/17/9007 (Minor Revised application)

Dear Mr Haggin

CONSULTATION ON PLANNING APPLICATION

Reference No: 4/17/9007

Proposal: WEST CUMBRIA UNDERGROUND COAL MINE & ASSOC INFRASTRUCTURE

Location: POW BECK VALLEY MIREHOUSE WHITEHAVEN

Thank you for the minor amendments received for the above application.

It is considered that the minor nature of the proposed changes to the original application will have a negligible impact on those impacts already highlighted in our previous response. I can therefore confirm that the Local highway Authority's comments made previously on 6 February 2018 should still apply.

I do however wish to point out that the wording of one of the financial elements should be amended to read as follows :-

...
3) £6600 for each of the Travel plans (construction and subsequent operational) as a monitoring fee and for other elements ensuring their implementation.

Yours sincerley

Pieter Barnard
Lead Officer – Flood and Development Management
