# Designing the Net Zero Hydrogen Fund

From:

Department for Business, Energy & Industrial Strategy

(<https://www.gov.uk/government/organisations/department-for-business-energy-and-industrial-strategy>)

Published

17 August 2021

## Summary

We're seeking views to inform the design of the Net Zero Hydrogen Fund (NZHF), which aims to support at-scale deployment of low carbon hydrogen production during the 2020s.

This consultation closes at  
11:45pm on 25 October 2021

## Consultation description

The Net Zero Hydrogen Fund (NZHF) will support at-scale deployment of low carbon hydrogen production during the 2020s.

We're seeking views on how we design the Fund to maximise its benefits, while ensuring value for money. The consultation outlines our proposals for:

- the type of funding the NZHF will offer
- the technologies we seek to support
- activities covered by the fund
- eligibility and project assessment criteria
- the delivery of the fund

Those interested in responding to the consultation are likely to include:

- companies involved in the construction of low carbon hydrogen production projects
- companies that are looking for development support for low carbon hydrogen production projects
- interested members of the public

See the BEIS consultation privacy notice (<https://www.gov.uk/government/publications/beis-consultations-privacy-notice/privacy-notice-relating-to-consultation-responses-received-by-beis>).

Please do not send responses by post to the department at the moment as we may not be able to access them.
