

# Winter driving in Cumbria

When road frost or icy conditions are forecast we will grit:

First priority roads (shown in red on the map) within three hours of work getting underway and second priority roads (shown in blue on the map) within five hours of work getting underway. Whenever possible these roads will be gritted by 8am.

It is not usual for us to grit other roads. However, during heavy snow, once priority roads are clear, we will also try to clear at least one access road to each community.

The following second priority roads are usually only gritted during daylight hours due to safety issues.

Road No.	From	To
A592	Brotherswater	Troutbeck (Kirkstone Pass)
A686	Melmerby	Alston (Hartside Pass)

*Whilst every attempt is made to meet the targets set out in this leaflet, circumstances may arise when it is not possible to do so.*
