Library Services for Schools Serving Schools in Cumbria

Are you responsible for your schools book budget but don't have the time or expertise to implement a planned approach?

Using our expert knowledge of children's books and access to quick ordering tools we can help you prioritise your spending where you need it most.

Does any of this sound familiar?

"It's hard to find the time to keep up with what's new and what's popular".

"We use Accelerated Reader in school but don't have a quick way of checking if the books are on the database before we buy".

"Different members of staff purchase books so that we end up with duplicates in school".

"I'm not sure what to purchase for my less able readers that would be age appropriate".

"I tend to purchase what I think the children will like but don't really have the time to look at my existing stock to identify what genres, authors or subjects I'm short of".

With our new personalised ordering service, we would come into school for 1 day to audit and assess your current stock, identify gaps, prioritise your spending and then create an order for you based on your budget. Books would arrive shelf ready within a few weeks with free plastic jackets and spine/ AR labels where appropriate. All you have to do is get the children excited about the new books when they arrive and put them on the shelves!
